Personal Profile

Recent Computer Science graduate with experience as a Quality Assurance Engineer, demonstrating a strong capability for collaborating within teams. I enjoy working in dynamic environment that present challenges, where I can apply my analytical and technical skills to solve problems effectively. Throughout my academic journey and professional experience, I have consistently demonstrated ability to learn and adapt quickly. Even when I encounter something new, I can get things done either through research or by simply trying things out. Currently seeking career opportunities in both quality assurance and software development.

Work Experience
